On 5th may 2022, during 10.20 am to 11.20 am, the students of B. Sc I, II and III of department recorded the noise level at various places at beed city with the help of decibelmeter. The places included were Mrs. K. S. K. College road, Civil Hospital, Shivaji Statue, Sathe Chowk, Court, Nagar Naka Beed. 18 Students were actively participated in this activity.

According to the observation table we conclude that on that day all the places except Sathe Chowk, Beed, were in Safety limit of sound level. We always try to create awareness among the people to stay away from such noisy area who are exposed to high levels of noise like Sathe Chowk, Beed, make hearing protection convenient.

AIR POLLUTION MANAGEMENT

A. Periodic awareness programme for staff, students and society:

Establishment of oxygen park, plantation of ox rich plants

Our college has a beautiful green campus. We have skillfully planted the plants like Pimpal, Neem Trees, & Tulsi so as to have oxygen and make the campus fresh full of oxygen. The greenery has remained useful in developing oxygen park in our college.

'No Smoking, No Tobacco' in campus area:

Mrs Kesharbai Sonajirao Kshirsagar Alias kaku Arts, Science & Commerce College is completely smoking and tobacco free campus and use of these are a punishable offence. The instructions regarding this are already given to the students and the staff members. The display boards are displayed at various places in the college. In reference to this subject we created various eye opening posters and wallpapers through Ajivan Shikshan Vistar Seva Dept. in our college.

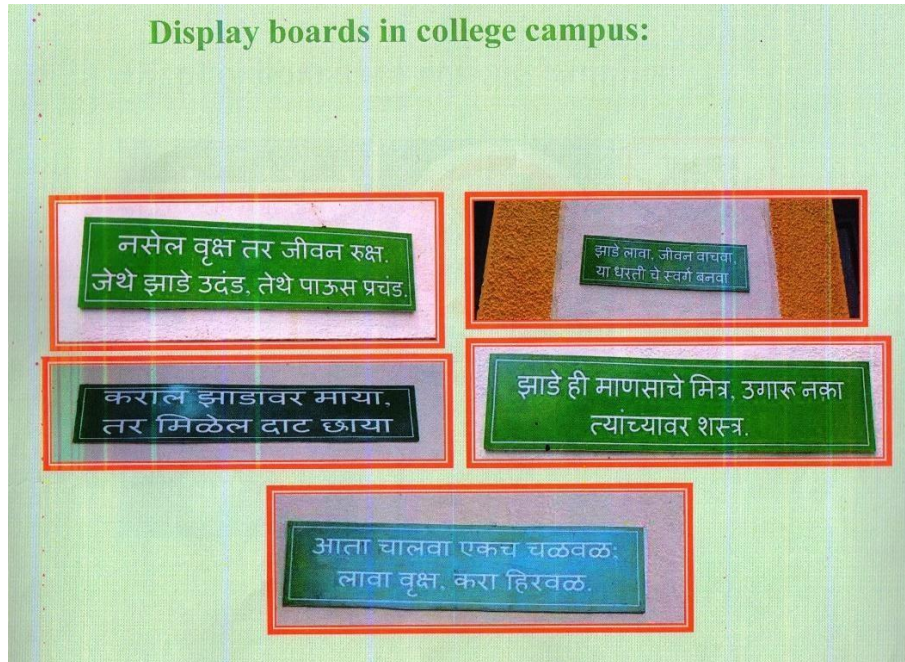

Display boards in college campus:

Various boards for the awareness on the environment control, noise control, tobacco free campus, conservation of energy, recycling of resources, tree plantation and environmental policy of college are displayed for all the stakeholders.

Display boards in college campus:

Paperless office

All the notices of college are conveyed to the staff and student through email or social media.

In college maximum data is converted into soft copies and procedures are digitalized which minimizes the use of printing papers. We also put warning stickers on each photocopy / printing machine to use. The maximum working procedures are paperless. We take the already on sided photocopy peppers in use to avoid the maximum use of papers.

Plastic Free Campus

Parking Areas of College

Silence Zone in College

Silence zones in college like library, auditorium various display board are present.

H. Emergency phone numbers:

All the emergency phone numbers are displayed at the entrance and copy is also available in administrative office.

Rain water harvesting:

Our college is having rain water harvesting system to conserve the rain water. The earth water level is increased which helped to have water to our college hand pump /boar. It increases natural storage of water, and helps the college in getting water for various purposes.we have 210 running meter pipeline use for this purpose.the total 12391 sq. meter are roof water is collected through this system.

OTHER SECTORS FOR ENVIRONMENT MANAGEMENT:

The college has constituted the 'Environmental committee' to look after the solid, liquid and e-waste management and other environmental issues. The committee sets out to identify the types of wastes, category of waste generators, how to collect, handle and dispose wastes; and who will be responsible for what kind of waste. First step of the process is 'Waste Survey' and a common reference-point to start a practice in waste management. Few steps outlined below are identified for the waste management process.

Waste Management:

The college has constituted the 'Green Audit committee' to look after the solid, liquid and e- waste management and other environmental issues. The committee sets out to identify the types of wastes, category of waste generators, how to collect, handle and dispose wastes. Few steps outlined below are identified for the waste management process.

Steps of Waste Management:

Survey of waste:

Primarily we identify sources of wastes and types of wastes generated in the college campus. Therefore, first step for waste management system is Waste Survey.

Sources of Wastes from where waste generates:

The committee has prepared a list of places from where the wastes are generated in the campus.

Liquid waste Method:

Liquid waste is appropriately treated for minimizing its toxicity before being discharged into the sewer systems or dumped into land pit or burn it. Liquid waste is treated with chemical disinfectants, neutralized with appropriate reagents then flushed into the sewage system. Thus, liquid waste management includes procedures and practices that prevent discharge of untreated pollutants to the drainage system or to water bodies as a result of the creation, collection, and disposal of non-hazardous liquid wastes.

E-waste Management:

Designate a room in the Campus which may be called 'Material Recovery Centre' (MRC). The discarded e-wastes from all the office blocks in the campus shall be sent to the MRC, and stored there until it is sent to e-waste recyclers. Electronic-waste from office can be discarded in two ways. One way is Extended Producer Responsibility (EPR). Under EPR manufacturers of computers, and other electronic items should take back end-of-life products. If some Producers / manufacturers want to appoint a 'Producer Responsibility Organisation', which - on behalf of manufacturers - collect, dismantle and recycle end-of-life products can do so. Institution is used such facility for the disposal of e-waste. The idea is demanding the producers to take back e-waste through the same channel they used for placing a products in customers hands. This can be something like an exchange offer. It is estimated that 75% of

electronic items are stored due to uncertainty of how to manage it. These electronic junks lie unattended in houses, offices, warehouses etc. and normally mixed with household wastes, which are finally disposed off at landfills. This necessitates implementable management measures.

List of e-waste:

CD/DVDs

Pen drives

Cables / Wires

Modems

Calculators

Electronic scrap parts

Mouse / Key board such items

Speakers

Laptops

Printers

Air-conditioners

Freezers

Digital Thermostats

Fluorescent Lamps and tubes

Incandescent Light bulbs.

3. NOISE POLLUTION MANAGEMENT

Silence zones in college like library, auditorium:

Various display boards are present in library, auditorium and other places for awareness to maintain silence in the college.

Noise control during any programme in college:

The college has one huge gate for the entry and exit of students, monitored by the security guard. The security guard and professors of sports department ensure smooth entry and exit of students without any noise and nuisance under Discipline Committee.

Use of LED bulbs in college:

Principal's Office, Office of IQAC, Administrative Office, Library, Guest Rooms, Indoor Stadium, Ladies Common Room, Virtual Classrooms, Language Lab, Computer Labs, Science Lab, Departmental Offices, and all classrooms have LED bulbs to save energy.

Total lightning Requirements	Percentage(%)lightning through LED bulbs	Percentage Lightning through other sources
