## Criterion II: Teaching Learning and Evaluation

### 2.3. Teaching- Learning Process

*2.3.1 Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences using ICT tools*

## *Problem solving methodologies*

### Student Mentoring Committee

The principal of college has been observed that formal teaching- learning process requires more efforts to solve different problems of learners. It must be assisted by personal counseling and exchange of ideas on various personal levels between students & teachers. Keeping this in view the college has developed a mechanism called student mentoring system. The college form mentoring committee include one chairman three members one for each faculty of arts, commerce and science. The teachers are allotted with 40-50 students each. The students allotted to each mentor on the basis of subject and classes handled by the mentor. The care was taken that each student will have the same mentor for the next three years of his graduation. The proforma has been designed for the personal details of the students including his family details. Each mentor is asked to prepare a details of the activities to be undertaken per semester and to distribute among the mentees allotted to him for this, mentor conducts the initial meetings so as to get information what kind of mentoring they need by asking few questions .In these meetings, mentor points out individual strength and weakness of mentees so as to plan the activities and guidance

The teachers always ready to do all kind of help to mentee. The benefit of student mentoring system is to get increasing students' attendance in class is remarkable as well as One of the successes to implement mentoring system is the students dropout rate of the college decreased.
